

2015

Clean Air Bulletin

August is “Park and Ride” Month

Clean Air

Options:

Bicycle

Carpool

Electric Vehicle

Metrolink

Park & Ride

Public Transit

Ride Light Rail

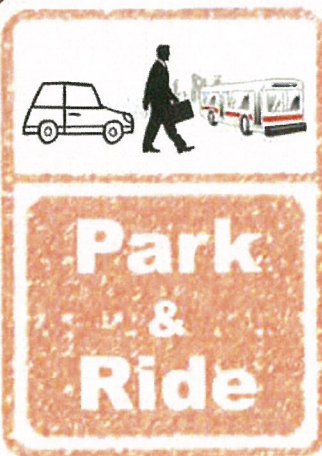

Ridematch

Rideshare

Telework

Vanpool

Walk

Did you know that you can combine Rideshare options? You can use a **Park and Ride** lot along with taking the bus or the train and if you carpooled to the **Park and Ride** Lot, you'd be saving more compared to driving

alone. By combining Rideshare options with a **Park and Ride** lot, you'll save time and money while commuting to work. Metrolink Riders already do this by parking their car at the train station and then taking the train in the rest of the way. You can go to [www.go511.com/transit/park and ride/lots.aspx](http://www.go511.com/transit/park_and_ride/lots.aspx) and see a map for all the **Park and Ride** lots in Southern California. For more information on Ridesharing, go to www.rideshare.lacounty.gov.

Take Pride, Share the Ride.
